SA Power Networks

**9.30pm, Thursday 14 September 2016**
**Adelaide Hills update**

Significant flooding and difficult weather conditions are restricting access for crews to restore power, particularly in the Adelaide Hills area.

As a result, about 200 customers in Paechtown, Crafers, Nairne, Ashton, Stirling, Aldgate, Meadows, Upper Sturt and localised areas in the Mt Lofty area will remain without power overnight, and potentially into tomorrow evening.

Expected restoration times are listed on our website: www.sapowernetworks.com.au

Stay away from downed power lines and report via 13 13 66.
