## Limited Merits Review decision – statement from SA Power Networks

The Australian Competition Tribunal's decision relates to our application for review of aspects of the Australian Energy Regulators' (AER) final decision on SA Power Networks' distribution determination for 2015-2020, published on 29 October 2015.

The Tribunal decision is extensive, complex and highly technical.

We will undertake a detailed review of the judgement before determining what further action we may take, if any.

At this stage, we will be making no further comment on the decision.
